

Putting care at the district heart of the community

Priors Hall Park is the first of our sites to open a luxury 66 bed care home, located next to the district centre with views overlooking the amphitheatre and gully wildlife site.

LNT Construction started working in October 2020 on the 66 room care home, which opened ahead of schedule on 18th December.

The official opening ceremony in December 2021, included the deputy mayor of Corby, Santa and his reindeer, a Christmas market and tours of the home, while Corby's Deep Roots Tall Trees Choir provided carols.

The facility, built by LNT construction and run by Halcyon Care Homes, is over three floors with every resident having their own front door to their bedroom and ensuite wet room as well as access to a cinema, tea room, garden room, sky bar and communal lounges.

So far 28 members of staff have been recruited, with numbers to double to provide care for residential, dementia, respite and convalescent care.

"I'm excited to be working with the Corby community on events as our first residents move in. We are looking forward to showcasing our new home."

Preet Hundal, Priors Hall Care Home manager
